## PROFESSIONAL SUMMARY

---

Application Security professional with 6+ years of experience in penetration testing (web, mobile, API), secure code review, and DevSecOps across organizations including Barclays, Mastercard, Bharti Airtel and TCS. Skilled in penetration testing and secure code review of web apps, mobile apps and APIs. Proven track record of identifying critical vulnerabilities and driving remediation at scale. GPEN and CRTP certified. Acknowledged by NCIIPC for responsible disclosure of vulnerabilities in Indian Government websites.

## EXPERIENCE

---

### Barclays | Sr Application Security Consultant

Nov 2025 – Present

- Performed secure code review for 20+ web applications, mobile apps, and APIs using Veracode SAST.
- Consulted developers and senior management on vulnerability remediation by communicating risk and business impact.
- Collaborated with AppSec leadership to build a working model that drove SCA findings remediation across the organization.
- Created comprehensive documentation and Confluence pages to guide development teams on remediating SCA findings.
- Led library/component whitelisting initiatives, considering vulnerability severity and license compliance.
- Partnered with penetration testing team to escalate critical findings using correlated SAST & SCA scan data.

### Mastercard | Vulnerability Analyst II

Jan 2024 – Nov 2025

- Conducted 80+ penetration tests on web applications, REST/SOAP APIs, and mobile applications (Android & iOS), uncovering critical authentication bypasses and injection vulnerabilities.
- Performed end-to-end security assessments for PCI-scoped public-facing and internal applications, ensuring compliance with PCI-DSS standards.
- Identified JWT implementation flaws enabling privilege escalation; delivered technical presentation on “Attacking JWT Tokens” to Corporate Security team.
- Consulted developers on secure coding best practices, reducing average remediation time by guiding risk-prioritized fixes.
- Ranked 4th among 100+ participants in a CTF hosted for Mastercard employees.

### Bharti Airtel Limited | Information Security Analyst

Aug 2022 – Jan 2024

- Conducted VAPT on 30+ web, API, and mobile applications including customer-facing products serving 300M+ users (Wynk Music, Airtel Thanks App).
- Discovered critical IDOR and broken access control vulnerabilities in public-facing applications, preventing unauthorized data exposure.
- Triaged 500+ SAST findings (Coverity) reducing false positive rate and guiding developers on remediation.
- Delivered training sessions on API security (OWASP API Top 10) to cross-functional development teams.

### Tata Consultancy Services | Security Analyst

Feb 2020 – Aug 2022

- Performed VAPT on 40+ web, API, and mobile applications across e-commerce, food delivery, healthcare, and airline domains.
- Conducted secure code review using Fortify SAST, identifying critical vulnerabilities including SQLi, XSS, Authentication bypass, and Account Takeover.
- Trained 15+ new team members on web application security testing and delivered organization-wide sessions on “Exploiting SSRF” and “Broken Cryptography and Account Takeover”.

## TECHNICAL SKILLS

---

**Pentesting Tools:** Burp Suite Professional, OWASP ZAP, Nmap, Nessus, Metasploit, SQLMap, Postman, SoapUI, Insomnia  
**SAST & SCA:** Veracode, Coverity, Fortify, BlackDuck, WiZ  
**Mobile Security:** MobSF, Frida, Objection, Jadx, APKTool, Dex2Jar, Magisk  
**Standards & Frameworks:** OWASP Top 10 (Web, Mobile, API), SANS Top 25, PCI-DSS, NIST  
**Security Methodologies:** Secure SDLC, Shift Left, SAST/SCA integration, Vulnerability Triage  
**Platforms & OS:** Kali Linux, Parrot OS, Windows, macOS  
**Project Management:** Jira, Confluence, Archer

## EDUCATION

---

**Jain College** **Aug 2016 – Sept 2019**  
*Bachelor of Computer Applications – **Percentage: 80.2%*** *Jamshedpur, India*

## CERTIFICATIONS

---

**GPEN – GIAC Penetration Tester** **Nov 2024 – Nov 2028**  
*SANS* *Certificate No: 19776*

**CRTP – Certified Red Team Professional** **Jul 2025 – Jul 2028**  
*Altered Security* *Certificate No: ADLID12316*

**Microsoft Azure Fundamentals AZ-900** **Oct 2021**  
*Microsoft* *Certificate No: H994-1292*

**Microsoft Certified: Security Fundamentals SC-900** **Dec 2022**  
*Microsoft* *Certificate No: I522-0513*

**Certified Ethical Hacker (CEH)** **June 2022 – June 2025**  
*EC-Council* *Certificate No: ECC1592763840*

**CEH Practical** **Jan 2022 – Jan 2025**  
*EC-Council* *Certificate No: ECC8369521704*

## ACHIEVEMENTS

---

- Secured 3rd rank (2020) and 10th rank (2021) in Best Ethical Hacker Contest among 500+ participants at Tata Consultancy Services.
- Acknowledged by NCIIPC (National Critical Information Infrastructure Protection Centre) for responsibly reporting multiple security vulnerabilities including XSS, SQL Injection, and sensitive data exposure on Indian government websites.
